

Purpose	Standardize recording of individual feed intake and methane emissions
Species – Breeds – Traits	Ruminants: dairy cattle, beef cattle, sheep, goats All breeds (1) Dry matter intake, (2) Enteric methane emissions
Standards & Guidelines	Dry matter intake – guidelines on how, when and what to record Methane output – guidelines on (1) how, when and what to record, and (2) how to compare and combine measurements with different techniques
Services & Other	Provide a forum to collaborate, exchange information and learn from each other on aspects of recording and using dry matter intake and methane outputs data Develop, provide and promote a system and standards for data storage and genetic evaluation services which will form the basis of services that ICAR will provide on a user-pays basis
Issues & Points for Discussion	Ensure link with Animal Data Exchange WG

Structure:

Chair: Roel Veerkamp

Vice Chair/Secretary: Yvette de Haas

ICAR contact person: Brian Wickham

Members working group:

Jennie	Pryce	jennie.pryce@ecodev.vic.gov.au	Melbourne	Australia
Filippo	Miglior	miglior@cdn.ca	Guelph/CDN	Canada
Nina	Krattenmacher	nkrattenmacher@tierzucht.uni-kiel.de	University Kiel	Germany
Raffaella	Finocchiaro	raffaellafinocchiaro@anafi.it	ANAFI	Italy
Birgit	Gredler	birgit.gredler@qualitasag.ch	Qualitas AG	Switzerland
Phil	Garnsworthy	Phil.Garnsworthy@nottingham.ac.uk	Nottingham University	United Kingdom
Gilles	Renand	gilles.renand@jouy.inra.fr	INRA	France

Industry liaison group:

Marco	Winters	Marco.Winters@dairyco.ahdb.org.uk	DairyCo	UK
Daniel	Abernethy	dabernethy@adhis.com.au	ADHIS	AUS
