

International Committee for Animal Recording (ICAR) Membership Application for Full Membership

Please complete this application and mail two copies to:
ICAR – Via Savoia 78, sc. A, int.3, 00198 Rome, Italy

As stated in the Statutes of the association, the objects of ICAR shall be to promote the development and improvement of performance recording and evaluation of farm animals. Such objects to be achieved through establishing definitions and standards for measuring animal characteristics having economic importance.

ICAR develops and establishes standards to define criteria to be applied consistently in the provision of recording and evaluation services, in the manufacture and supply of animal identification, performance recording and analytical devices and in testing of such and in analysis of animal products and performance for recording and evaluation purposes.

ICAR rules define basic principles of animal identification, registration of parentage, performance recording and genetic evaluation.

On the basis of sound scientific evidence, the ICAR guidelines recommend procedures and methods of animal identification, registration of parentage, performance recording and genetic evaluation.

“I declare to have read and accept the Statutes of ICAR, its International Agreement for Recording Practices, and the internal regulation on use of name and logos”.

We apply for FULL membership. Please state whether you are applying for full membership

This is to certify that we are applying for full membership.

Please provide a description of your organisation and your business activities:

We are a trade company based in Iran. Our company with more than two decades of executive-scientific experience in the agricultural fields including livestock and poultry management, food industries, veterinary, husbandry and agriculture mechanization, new energies, import and export with slogan of "New thought in the Agricultural and livestock Industries" has been producing healthy, and organic products for daily human nutrition and also investigating the demands and fulfilling the scientific needs of universities and research centers and production units of the country and evaluating the efficiency of products in Iran also by considering the international researches and depending on the needs and available resources has been producing or importing the required products. In addition, we have been collecting data relating to dairy cow farms and analyzing the data and showing the results to breeders. In other words, our company also works in the fields of scientific and technical services, animal breeding & genetics, genetic material, etc.

Please indicate the benefits and services your organisation seeks from becoming an ICAR member.

As it was mentioned above, our company has been working in different fields of livestock and husbandry specially animal breeding and genetics. Thus, we as a leading company in this field in Iran are willing to be a part of ICAR and Interbull organization in order to be able to do the national and international genetic evaluations for dairy cows based on the Interbull international evaluations and standards.
