7. Please add any comments on "Pre-conference organisation"			
Response	Response Text		
1	Wish to participate in coming events		
2	It would be better to combine meetings and sessions together, to have half day of sessions and half of meeting, as the time of conference get too long, and sometimes you have to choose. Not all meetings are important for everybody so it would be more efficient to combine.		
3	it was rather difficult to plan for the conference given that the actual conference programme was unclear/not published until mid January.		
4	The program was very unclear partly due to the combination with WCGALP.		
5	very expensive registration regarding that nothing was distributed to participants, no bags, no abstract book, nothing		
6	Schedule was very unclear and dates were misleading. Although the conference started on the 7th, nothing was really open until the 10th.		
7	Need a category of not applicable as some of these answers do not apply		
8	This was done by a third party on behalf so I did not have a lot to do with this part of the process		
9	Options for Accompanying tours to buy more than 1 ticket would have been nice to have less extra work for Rachel for us		
10	It would have been good for the organizers to inform participants that some of the session were closed, and not available for all participants to attend. I only discovered I could not attend some sessions when I arrived and enquired at the reception desk.		
11	The timing of notification was slow and the last minute changes to timing meant one of my employees wasn't available to present.		
12	Was any gift....		
13	As a first-time paper submitter, I found the guidelines and template hard to follow. For example, the guidelines suggest a hard 4 page limit, but in discussing with Bevin Harris, he said that was actually a loose guideline. Suggest these guidelines and template be overhauled.		
14	It was very unclear when the exact ICAR meeting was and when it was WCGALP and Interbull. A clear timeframe would have been handy. As a stand on the exhibition was only useful during the ICAR sessions and not during WCGALP. Which resulted in rescheduling and rebooking of flights at the end of the conference.		
15	Admin staff were excellent dealing with my queries and changes		
16	the website was very confusing and not very informative. trying to work out when ICAR sessions were was very difficult.		
17	The timetable for the ICAR conference was bad. Board meeting was included in the whole conference timetable. If you were registered for ICAR until 11th the hotel booking was until 11th (last night was 10th).		
18	Registration very complete

Response	Response Text		
1	Some issues with WiFi dropping and slow.		
2	Quality of wi-fi very low. Kept disconnecting every 5 minutes!		
3	very noisy during the night time, especially on Friday and weekends		
4	The manager of the backpacker hostel was very helpful when Rosanne caontacted her. Finally everything worked out fine.		
5	Hotels proposed were too expensive.		
6	no		
7	extremely high room charges. no cafe/restaurant in house.		
8	Not to recommend		
9	very expensive		
10	Did not stay at a hotel, stayed at home. No option to opt out of these questions.		
11	This was organised by a third party, located about 1/2 hour out of the city limits. Very good opportunity to pool a few of us together when not at conference.		
12	all the staff did an excellent job at hotel H.B, Subina and Nardos did an excellent job in the 12 floor lounge		
13	I shared a house with other ICAR conference people. It was a great experience, where you could discuss the conference over dinner.		
14	too expensive		
15	Private accommodation - ignored questions		
16	Reception staff overlooked my full payment in October so had to pay and organise a refund after arrival. Breakfast was paid for but after the first morning we opted to sort our own breakfast out- too many people for the dining room, self service and everything running out, not enough staff, tables piled with dirty plates and spilled food.		
17	There was no flexibility from the personnel in the hotel ragarding cleaning, breakfast etc.		
18	The hotel proposed by OC was expensive

Total who skipped this question:		59	76.62%
Total:		77	100%
19. Please add any comments on "Exhibitors / Sponsors"			
Response	Response Text		
1	Worked well being combined with WCGALP.		
2	It would have been much better to have all sponsors in one space.		
3	Having the sponsors on the separate levels didn't work will for both exhibitors and delegates. many of the Gold Sponsors seemed to have the worst spots.		
4	The electronic posters were not placed very well.		
5	Having sponsors spread out on many levels was not great. Many sponsors on the top level did not get the required interaction with attendees		
6	it was a pity that the exhibition area was spreach across 3 floors.		
7	Too widely dispersed		
8	The Exhibitors on the top floor did not receive much attention from the audience.		
9	NA		
10	split of exhibitions is several locations was not good. It should all be in one place and at that place the coffee should be. Besides that the cue for coffee an lunch was far fat to long. that takes away the time they talk to us.		
11	I would have liked to see more exhibitors		
12	3 floors for sponsors - made it more difficult		
13	In the past place for sponsors was much better - on one place		
14	Level 5 exhibitors had very little traffic		
15	LIC stand was almost in the worst possible location for people traffic, which is inconsistent with LIC's status as an event sponsor. There were some very minor stands in the main area outside the main theatre, and many important stands in less accessible locations.		
16	Could not find all exhibitors - hard to search and visit on many levels with short breaks		
17	it was difficult to find exhibitors as they were too spread out		
18	By discussing with the sponsors many of them, who like to attend ICAR, didn't feel comfortable because they were not well informed and there was no clarity due to the lenght of the conference.

24. Please add any comments on " The Programme "			
Response	Response Text		
1	App was great.		
2	Would have been better to have hard copies of the programme as well. Depending only on the app was not the best idea, given also that the wi-fi in the conference center was not good. The app was slow to open and not very user-friendly (somewhat complicated to follow the programme).		
3	A pdf version of the full programme missed. The app is a good idea but not a good realization.		
4	As there was app it would be good to have alerts of the events you marked as interesting so not to miss.		
5	The app was difficult to navigate and did not work at all on one of my devices. The conference centre wifi was terrible so the app became ineffective		
6	Changing the programme at the last minute and not broadcasting it to people is just appalling. You need to have an app that works offline. Internet was great for ICAR/Interbull but when WCGALP added another 1000 people trying to use the wifi, it kept crashing. Not good enough for the price of the conference.		
7	Airco not working, how is that possible?! Food quality was good, but not enough distribution points. Very long waiting lines, not enough plates, knives, etc. And this didn't improve after the first days. This was very bad. The user interface of the app was not up to date. All functionality was present, but it didn't work smoothly at all.		
8	Had to delete the app and download again		
9	The app does not give a proper overview. The food was below standard or not enough.		
10	Air con broke down. App on phone, steered clumsily and couldn't tell if in own timetable or conference clearly. Kept getting reminders for things I hadn't included		
11	The App did not work very well so to look up anything to do with the program it had to rely on internet.		
12	loved the app....please add for next meeting the "Closed" session pre meetings so we know which ones we can ask to attend if possible		
13	Most information / content became available in a very late stage (after arrival)		
14	The conference catering food was healthy and delicious, thank you! However, The lunch caterers ran out of cutlery on the ICAR conference on Sunday. The conference dinner main meal was not that wonderful		
15	The App rarely worked during the conference. Would say it was a complete failure.		
16	It would be useful to have a more compact, overview of the programme for planning purposes.		
17	App stopped working pre-conf for some reason and needed re-connection to conference and then worked fine again without loss of any data saved pre-failure		
18	The lunches were great, evening meals, including the gala dinner and the welcome reception were not of great quality. The venue did not had AC for a couple of days which made it very unpleasant to be there.		
19	An indication of which were open and which were closed meetings would have been helpful		
20	Using an app needs full web access. I only had access via roaming, which was very expensive. If an app is used forward, ICAR need to be sure participants is directed to local and cheap network that does not require roaming.		
21	the app was too complicated		
22	There was bad connection to the wifi. No overview over the programme. No good change between sessions.

Response	Response Text		
1	Sound/display system issues in both ICAR and Interbull sessions		
2	The structure of the building was complex with many levels, making it complex to go up and down different floors during the day.		
3	Poster screens were much too far the one to the other.		
4	Big problems with air conditioning on Sunday and Monday		
5	The cooling system was terrible. Wifi also terrible		
6	air conditioning failure was tough		
7	Would have been good to have better internet/wifi available. Also airconditioning that worked.		
8	bit busy displays not always easy to read		
9	partly in Grand Millenium / partly in Aotea centre - was confusing		
10	AirOconditioning breakdown was a major disappointment especially given the weather conditions at the time.		
11	some seating arrangements in the smaller rooms was too close together.		
12	seating in the smaller rooms was poor too few open spaces within the rows, hard to wlak in/walk out and find a seat without disturbing others		
13	it was not easy to find the correct room - there should have been signage

Response	Response Text		
1	I think that the ICAR closed program, most of the program from Feb 07 to 12 (closed working group in the hotel), should be previously and clearly communicated to the participants, before the registration.		
2	although this was the "large" ICAR conference, there were only 2 days of presentations (i.e., Saturday and Sunday). i missed reports of different ICAR working groups on their work (e.g., global trends etc.). Also, there was not a single presentation describing the dairy sector in New Zealand. this was clearly missing.		
3	Upon review an interesting range of topics covered.		
4	bit of difference in quality and presentation by presenters very good to poor		
5	good conference and contributions

1	Nice to see something different.		
2	nice trip but too tired because of too long		
3	did not participate as they were organized very late		
4	It is a pity that during ICAR event it was not any Field trip		
5	did not attend		
6	No participation		
7	Weather influence always difficult to manage.		
8	I did not take part in any field trip. The ICAR part of the conference was finished on Sunday and the field trips were on Wednesday. This was unlucky, in my opinion.		
9	It was long for what we actually did. Would have been nice to visit more farms and had better plans for rain. We were always running late also.		
10	Did not take part in a field trip		
11	Unfortunately I was unable to attend any of the field trips		
12	did not join		
13	I did not attend a field trip		
14	Did not attend any		
15	did not do a field trip		
16	Field trips (and activities for accompanying persons) were unavailable for those of us just attending the ICAR conference.		
17	Did not participate		
18	For ICAR it was bad that the field trip was three days after the end of ICAR meeting. No chance to attend.

1	Great meeting.		
2	It should be communicated previously to the registration that the most of the program are closed meetings, closed working groups.		
3	'Keep it simple' as much as possible. Lean and customer-focused organization. Thank you!		
4	Having the conference centre and accommodation separate reduced the value of interaction with colleagues and sponsors. The best ICAR conferences are the ones where the venue and the accommodation are in the one complex. Would be worth having breakout sessions in adjoining hotels to keep everyone together for the conference proper.		
5	please no parallel session. joint ICAR WGCALP conference resulted in "diluting" the ICAR participants by WGCALP participants and thus networking was fairly difficult. Also the content of WGCALP was not really relevant for many ICAR participants.		
6	Very good work of the team ! Kiwis are incredibly welcoming		
7	some of the sessions should be opened up to the wider farming community		
8	In general food was not as is should be. 3 congresses in one, was not a succes, especillaly for exhibitors. We were there for Icar and Interbull, but had to stay longer with exhibition. That was not good and will not do next time		
9	Some of these questions do not have a not applicable option. I am unable to save with them blank!		
10	this was my first ICAR conference. I only attended the Saturday and Sunday. I was really impressed with the information I gained.		
11	Saturday night gala event was excellent, however the food served was not very good, poorly cooked and very small portions.		
12	Better information before the meetings, before flights are booked. Better quality food and make sure the AC works. Social and networking events in Schotland last year were much better.		
13	It is very difficult to talk during the Gala dinner. Music is far too loud. I would prefer less noise and more time to talk.
