

THE GLOBAL STANDARD  
FOR LIVESTOCK DATA

January 14<sup>th</sup>, 2019

**International Committee for Animal Recording (ICAR)  
Membership Application**

Please complete this application and mail two copies to:  
ICAR – Via Savoia 78, sc.A, int.3 (00198 Rome, Italy)

As stated in the Statutes of the association, the objects of ICAR shall be to promote the development and improvement of performance recording and evaluation of farm animals. Such objects to be achieved through establishing definitions and standards for measuring animal characteristics having economic importance.

ICAR develops and establishes standards to define criteria to be applied consistently in the provision of recording and evaluation services, in the manufacture and supply of animal identification, performance recording and analytical devices and in testing of such and in analysis of animal products and performance for recording and evaluation purposes.

ICAR rules define basic principles of animal identification, registration of parentage, performance recording and genetic evaluation.

On the basis of sound scientific evidence, the ICAR guidelines recommend procedures and methods of animal identification, registration of parentage, performance recording and genetic evaluation.

"I declare to have read and accept the Statutes of ICAR, its International Agreement for Recording Practices, and the internal regulation on use of name and logos".

**Please provide a description of your organisation and your business activities:**

The Chamber of Agriculture of the Republic of Lithuania is one of the oldest agricultural organizations in Europe. Established in 1926, it now has become the most influential and significant self-governance organization of farmers, having a significant input to development of modern, competitive Lithuanian agriculture. The Chamber is an umbrella organisation that unites 49 professional, territorial and branch non-profit organizations. 7 of these are cattle breeders' associations.

Chamber of Agriculture of the Republic of Lithuania assists the rural society in application of modern scientific knowledge, implementation of innovations, organization of projects with Lithuanian and foreign partners. The Chamber seeks to assist governmental institutions in selecting the most appropriate instruments for successful implementation of agricultural and rural development plan, thus ensuring higher quality of decisions, taken nationally and coordinated with self-governance organization of farmers.

The Chamber works closely with its members and the governmental bodies in order to ensure the implementation of innovations and the representation of the member's interests in the animal breeding sector.

**Please indicate the benefits and services your organisation seeks from becoming an ICAR member.**

By becoming a member of ICAR the Chamber seeks to better represent the interests of the animal breeding organisations.

The services we are most interested in are the promotion, development and improvement of animal identification, performance recording and evaluation in farm animal production, better understanding of the guidelines for measuring characteristics of economic importance.
