

16704/30.04.2019

Mr. Director Burke Martin,

The Aberdeen Angus Romanian Association, as a breed improvement and holder of the Aberdeen Angus breed improvement program in Romania, approved in accordance with European Regulation 1012 of 2016, as amended, requires the association to be registered as an official member of your organization.

- The Aberdeen Angus Romanian Association is the only accredited association for the management of the Aberdeen Angus Herdbook and the only holder of an authorized breed program for Aberdeen Angus breeds in Romania;
- The Aberdeen Angus Romanian Association complies with the provisions of the ICAR Regulation, for the purpose of exercising the Official Performance Control Service for meat production.
- The Aberdeen Angus Romanian Association has 900 Aberdeen Angus cattle farms affiliated in the Herdbook, with a population of approximately 60,000 heads with genetic diversity from Australia, Canada, the United States of America and the main European countries.

The purpose of this collaboration is the exchange of information on genetic evaluation strategies and technologies, data on the Aberdeen Angus population in Romania and statistics on the evolution of the breed at national and international level.

We await an official response from you.

Yours faithfully,

Technical Executive Director,

Gociman Ioan Teodor

**International Committee for Animal Recording (ICAR)
Membership Application**

Please complete this application and mail two copies to:
ICAR – Via Savoia 78, sc.A, int.3 (00198 Rome, Italy)

As stated in the Statutes of the association, the objects of ICAR shall be to promote the development and improvement of performance recording and evaluation of farm animals. Such objects to be achieved through establishing definitions and standards for measuring animal characteristics having economic importance.

ICAR develops and establishes standards to define criteria to be applied consistently in the provision of recording and evaluation services, in the manufacture and supply of animal identification, performance recording and analytical devices and in testing of such and in analysis of animal products and performance for recording and evaluation purposes.

ICAR rules define basic principles of animal identification, registration of parentage, performance recording and genetic evaluation.

On the basis of sound scientific evidence, the ICAR guidelines recommend procedures and methods of animal identification, registration of parentage, performance recording and genetic evaluation.

"I declare to have read and accept the Statutes of ICAR, its International Agreement for Recording Practices, and the internal regulation on use of name and logos".

THE GLOBAL STANDARD FOR LIVESTOCK DATA

Please provide a description of your organisation and your business activities:

The Aberdeen Angus Romania Association is the first association in the country accredited for Official Production Control in specialized taurines for meat production and at the same time the only association in the country accredited for the management of the Aberdeen Angus Herdbook.

The association now has over 900 members from all regions of the country that hold more than 50,000 Aberdeen Angus cattle, accounting for more than 90 percent of the total number of heads present in the country. It is based on the main breeders of Aberdeen Angus cattle in Romania.

Please indicate the benefits and services your organisation seeks from becoming an ICAR member.

We will comply with ICAR international regulations and the genetic evolution of Aberdeen Angus in Romania with the help of your experience and research.
