Supporting letter

Dear Sir/Madam,

Please accept our warm recommendation for Mr. Boaz Hanochi for the position of ICAR board member.

Boaz has worked for ICBA for the last 25 years as the product manager of the "NOA" herd management program. NOA is used by nearly all the dairy farms in Israel. In 2006 the NOA software was purchased by DeLaval. As part of the cooperation between ICBA and DeLaval, Boaz worked as a senior consultant in Delaval for nearly 10 years and played a major role in the development of "DelPro," the DeLaval herd management program.

Boaz also led the development and management of the "TEVEL-BI" system, that was developed by the ICBA for the Israeli dairy industry in 2020.

Boaz holds a M. Sc. degree in animal science and has extensive experience in nearly all aspects of dairy farming in Israel and abroad.

We believe that with his skills and experience he will be able to make a major contribution to the ICAR board, for further development of the global dairy industry.

Sincerely yours,

Adi Kaplan, deputy director-general (VP)
