Subject: RE: Shape the Future: Nominate Yourself or Others for Board Membership!

Dear Marie-Agnes

Thank you very much for your letter and for looking forward to exciting times. Taiwan Livestock Research Institute is grateful for your sentiments and is excited about ICAR's mission and vision.

In response to your mention of board nominations, we are honored to recommend our Director General, Dr. Jeng-Fang Huang, as a candidate for a board position. Dr. Huang has extensive experience and outstanding leadership abilities in animal science, especially in animal breeding and genetics, animal nutrition, and livestock management. Dr. Huang earned his Ph.D. from the Institute of Animal Science at National Taiwan University and has since continued to contribute to the field of animal science.

We believe Dr. Huang's expertise, passion, and drive for innovation and strategic thinking will bring fresh perspectives and vitality to the ICAR Board. We look forward to collaborating with you and other members of the ICAR Board to achieve our common goals.

Thank you for your kind assistance and continued support.

Sincerely,

J. R Yang
