

To all member of the ICAR Board,

Subject: Nomination of Harm-Jan van der Beek for ICAR Board member.

As a member of ICAR we like to nominate for a position in the board mr. Harm-Jan van der Beek. He is the managing director of UNIFORM-Agri, a company he owned and sold in 2013 to Delaval, but still manages this company. The company is an associated member of ICAR and is active in software for Dairy farmers in many countries.

We hope you can agree and propose him for a position in the ICAR board during the General assembly in May in Canada.

We are convinced that he can have an added value to the board based on his knowledge and many years of experience in Herd management software. Also the expertise in data exchange to milk recording organisations and herd books internationally makes him a candidate that can have a good contribution to the board. And last but not least the widely spread network to sensor companies and experience in collection data from sensor systems on dairy farms can be a real added value for ICAR.

His international business experience can be also a good contribution to the board.

There is a CV of him attached to this nomination letter.

Best regards
