Of Dairy herd management software. (VeKuSoft)
1989 – now; Managing director UNIFORM-Agri bv. and subsidiaries
The company grow from 6 staff members to 80 now with 13
different nationalities.

Other activities (work related):

1994 – 2000; Board member of VEMI (Dutch Branch organisation
for milking equipment and automation)
2000 – 2021; Board member of NRM, Dutch Dairy Cattle Show
2013 – 2020; Co-founder & 1e Chairman of “Dutch Dairy Centre”,
Network organisation of Dutch companies that do business in
the dairy sector and do export.
2018 – now; member of ICAR ADE working group.

With the background of the dairy farm where I grow-up and the theoretical and scientific education at Wageningen University there is a lot of knowledge in the Dairy production sector. The experience for over 30 years with the herd management software of UNIFORM, that is one of the most widely spread programs in the world, gives a good doses of knowledge about this sector.

That experience in the international dairy sector is in Europe, the America's, Afrika and Asia.

The interfaces between the UNIFORM product and many old en new sensor systems , were I was personally deeply involved, gave a strong network and experience on that side as well.
