SC – WF - TF

June, Friday 20th 2008

Volunteers are the backbone

- Some 100 participate in various groups
- We have 18 Groups (4 SC, 2 TF, 12 WG)
- The skills and energy represented by these are the real ICAR
- Without all these people, ICAR would not be living

Main tasks

- Develop standards on new fields
- Maintain and develop existing standards
- Agree on the use and content of standards
- Facilitate technical developments

What if..
...we had no volunteers?

- No one would develop our services
- No one would think of new ways
- The Guidelines would suffer
- The technological developments would be more difficult

We all ow many thanks to all these people and their organisations

They are the true ICAR

Thank you
